

CASLAB Slides Template and Style Guide

- You can use View -> Master Layout to view available layouts:
 - Generic CASLAB
 - QC Security
 - Cloud FPGA
 - PQC
- Make sure to use **Roboto font**, available for free from Google, for all slides
 - Except Courier type font for code
- Blue color used in slides is **#154f90**
- You can use template with or without QR code
 - Preferred method is to add your QR code on top of existing QR code
 - No need to edit Slide Master this way, simply "hide" generic QR code under your custom code
- **Known issues:** PQC logo needs to be updated

Example of Slide with QR Code

- Example of slide with QR code
- You can over-lay your custom code on top of the existing code
